

GCBC Accelerator – Q&A

Introduction to the GCBC

Clementine Le Nagard
Senior Programme Manager,
GCBC

Unprecedented group of global organisations taking part in the Coalition

GCBC Members

GCBC aims to harness the power of our growing international membership, scaling their efforts, fostering the exchange of best practices and mobilising their invaluable knowledge to provide solutions to global issues

GCBC convenes, engages and supports capacity building providers and users

Value proposition

Convening capacity builders through...

Strategic Thought Leadership

Shaping the global agenda to ensure that capacity building offering is demand-driven and impactful

Fostering Collaboration

Facilitating knowledge sharing and partnership opportunities among capacity builders globally

Sharing Best Practice

Boosting visibility of effective capacity building, highlighting gaps, connecting demand with appropriate supply

and empowering users through...

Building Knowledge & Capabilities

Equipping finance professionals, especially in EMDEs, with high-quality content on climate finance

Amplifying Local Voices on Global Platforms

Providing a space for local institutions to surface challenges, engage with global institutions, and drive solutions

Accelerating Initiatives for Mobilising Finance

Highlighting successful practices for recognition and adoption

Achievements

Building a world-leading resource hub

~300

knowledge resources and 35+ case studies on the platform

~120

countries reached

Growing a thriving coalition

100

member organisations from across the globe

GCBC Accelerator

GLOBAL CAPACITY BUILDING COALITION

GCBC Accelerator: A global search for impactful and innovative sustainable finance capacity building

We want to spotlight and scale capacity building initiatives that mobilise sustainable finance in emerging markets and developing economies.

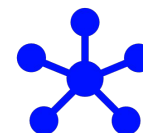

At its core, the GCBC Accelerator aims to:

Identify, support, and help scale high potential capacity building initiatives

Raise the profile of capacity building in the sustainable finance ecosystem

Help to socialise the learnings and recommendations from the GCBC's work on good practice in capacity building

What are we offering the selected initiatives?

Access to a bespoke accelerator programme offering a wide range of in-kind support that may include

Tailored support for scaling

- Working with selected initiatives to **identify and assess opportunities for taking their initiatives to the next level** based on specific needs, goals, and contexts
- **Expert advisory support** to refine strategy, improve implementation, and navigate challenges
- **Practical and operational support** to scale the capacity building initiatives

Global recognition & visibility

- **Invitations to speak and showcase** initiatives at high-level global events (e.g. London Climate Week, New York Climate Week, COP)
- **Featured** on the GCBC's website, newsletter, social media channels, and press releases

Partnerships & networking

- GCBC to **facilitate peer-to-peer learning** between selected initiatives, GCBC members, and other affiliates/contacts interested in supporting specific initiatives
- **Invitations** to future GCBC events and activations

What sort of support can we provide?

Illustrative examples of support

Tailored support for scaling

- Working with selected initiatives to **identify and assess opportunities for taking their initiatives to the next level** based on specific needs, goals, and contexts
- **Expert advisory support** to refine strategy, improve implementation, and navigate challenges
- **Practical and operational support** to scale the capacity building initiatives

Strategy & funding

Accelerate growth

Technical & content

Strengthen capacity building offerings

Technology & logistics

Support implementation

PR & communications

Amplify impact & visibility

Cohort management

Ensure long-term collaboration & acceleration

Who can apply?

Three thematic areas

Mobilising sustainable finance

Capacity building initiatives that improve the flow of sustainable finance in or to EMDEs, such as enhancing project pipelines, country platforms or making capital markets deeper and more sustainable.

Building climate capabilities

Capacity building initiatives that help financial institutions and/or finance professionals integrate climate-related risks and opportunities into decision-making.

Fostering innovation

Innovative and impactful approaches to capacity building, especially those using new technologies or models with the potential for high impact and to catalyse systemic change.

Judging criteria

Demand-driven

Does the initiative meet clearly defined needs of end-users?

Inventiveness

Does the initiative incorporate creative and innovative, research-based approaches?

Effectiveness of capacity building

Does the initiative demonstrate tangible improvements in the capabilities of financial institutions and/or professionals?

Sustainable impact

Does the initiative deliver long-term benefits with potential for scale?

Monitoring & evaluation

Does the initiative track progress, learn from results, and share insights?
